

NURSE SONOGRAPHER

Lima

Open to women only, must have active Ohio Nursing License, RN, RDMS or NP

Reports to Lead Nurse Sonographer

Requires 12 hours per month minimum

Extensive up-front and annual training paid for by Heartbeat

TIER:

OVERVIEW

This individual has the most intimate of conversations with our clients. Conversations about their health, their relationships, their support system, their understanding of adoption options, their knowledge of abortion procedures & chemicals, and how capable of pregnancy they truly are with God's grace and forgiveness.

IDEAL CANDIDATES

- Work independently most of the time
- Collaborate as a team when training takes place, procedures need to be adjusted, or when sharing duties or communication with other staff members or Medical Director
- Understand the importance of adhering to safety and legal policies.
- Present Christ in a loving and kind way, as often and as deep as the clients welcome.
- Respect clients whose beliefs or behaviors may not agree with ours, while still modeling Christ-like love and Christian values to them.
- Be comfortable discussing reproductive terms, sexual encounters, and challenging partner or family situations
- Follow protocol for all appointments and situations and be comfortable asking other staff for assistance when necessary.
- Keep ultrasound room clean, tidy and comfortable while following disinfection and sanitation procedures
- Be available several hours per week to conduct appointments or attend trainings.
- Understand this extremely rewarding but often emotionally challenging position requires a lot of training... medical, procedural, technical, legal, biblical and conversational.

REQUIREMENTS

- Application & Interview
- Understand and agree to the Commitment of Care & Competence and the Statement of Faith
- Shadow experienced nurse sonographers & complete specialized training as required based on experience.
- Must have valid Ohio Nursing license (RN or greater) and pass background check, Legal Training, and didactic training

DAILY DUTIES

- Evaluate client forms and additional forms and health history interviews
- Demonstrate active listening to monitor clients for signs of domestic violence, trafficking, sexual abuse, coercion or other risks
- Follow all medical policies and procedures
- Provide accurate life-affirming information about pregnancy, parenting, adoption, and abortion including the chemicals or procedures available and the risks and limitations of each.
- Respectfully present the gospel to the extent the client welcome/allows, modeling Christ's love, forgiveness, and desire for her future and that of her child
- Take accurate measurements and record all medical information in a clear and accurate manner for review by the Medical Director
- Make followup phone calls to personally touch base again with the client with her ultrasound results or concerns
